## General Comment

To HHS Secretary Sebelius:

I am very pleased with the current wording requiring preventative services to be included with healthcare plans. Please do not change the wording or remove preventative services based on certain religious groups requests. The government is not forcing anyone to take (or not to take) contraceptives. It is important that the option is available for women that want to use it. For those who feel it is against their religious code, they may choose not to use it.

Thanks,  
Mark
